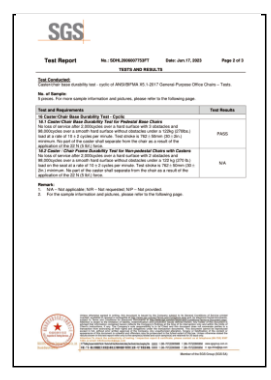
Product Advantage

- Complies with EU REACH and ROHS certification
- High quality-price ratio
- Passed 24 hours salt spray
- Adequate accessories and fast delivery
- Advanced equipment electroplating



Our Electroplating VS Traditional electroplatin

Our Electroplating

- Oil removal: Three processes to ensure thorough and stable oil removal
- Pickling： Two processes ensure cleaner washing
- Increase chemical polishing to enhance electroplating brightness
- Longer plating time, more than 1.5 hours double anode
- The use of environmentally friendly water cleaning to meet environmental requirements

VS

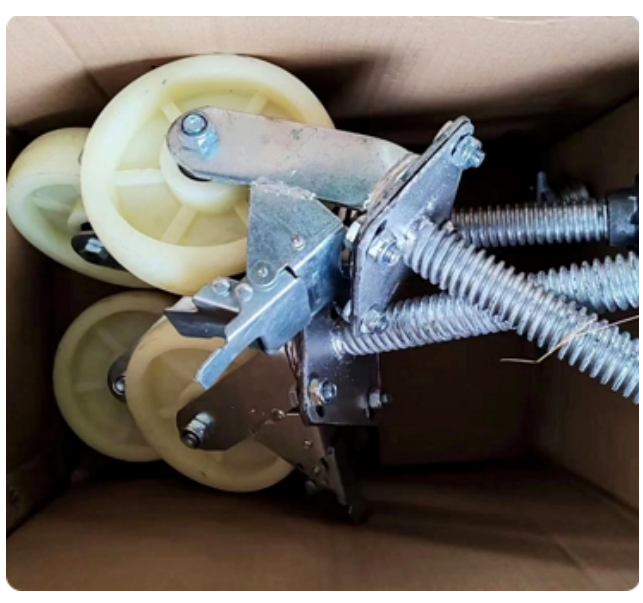
Traditional electroplating

VS • Oil removal: one process

VS • Pickling： one process

VS • No increase in chemical polishing

VS • 1 hour single anode

VS • Use of common potion


Production & Delivery
